Profile

UNITED ENGINEERS ALLIANCE-UEA

UEA is a privately owned limited company situated in the picturesque riverside city of the mighty Brahmaputra in the North Eastern Region of India called Guwahati (the gateway of South East Asia), established and registered in 2013 and **incorporated in 2014**, with having focus on Assam and North Eastern States of India. It is managed and staffed with experienced professionals, sub-professionals, and support staff with significant experience in the consulting arena.

UEA has been entrusted with the survey & study for planning, construction

supervision, authority engineering, and project management of major infrastructure projects in the Roads, Bridges, Power, and Health sectors in Assam and other NE states of India. It has experience in working with MNCs – AECOM, EGIS, SYSTRA- Brazil, AF-Consult -Switzerland, ISAN Corporation-Korea, and for International Agencies such as JICA, World Bank, New Development Bank, and Asian Development Bank.

UEA is committed to follow Quality Management System (QMS) and Environmental Management System (EMS) that are established in accordance with the requirements of ISO 9001 and ISO 14001 for every consultancy assignment. With compliance with the standards, we have established procedures covering all activities from design to the provision of services. **UEA is ISO 9001:2015 QMS and ISO 14001: 2015 EMS Certified.**

Aspiring to be one of the recognised engineering consulting companies in India, UEA is on a mission to diversify the scope of service into other fields, such as Railways, Water Resources, Irrigation, Forest, Rural Development, Power T&D, and Information Technology.

UEA offers both quality and performance through its professionals, engineers, and support personnel available in this region of India. The team is motivated to face all challenges to the satisfaction of the client. In both public and private clients in the following service sectors:

SERVICES	SECTORS
Study & Survey	Roads
Authority Engineering	Bridges
Supervision Consultancy	Power
Project Management	Health
Monitoring & Evaluation	Environment
Technical Audit	Social Development

UEA operates with a commitment to integrity and holds UEA to the highest standards of ethics, quality, and accountability.

Our Vision –

To be a globally recognized leader in engineering consultancy, driving sustainable infrastructure development that strengthens climate resilience, promotes socio-economic growth, and enhances the quality of life for communities.

Our Mission –

- To deliver technically sound and innovative engineering solutions that meet global standards and adapt to local challenges.
- To promote sustainable development by integrating environmental and social considerations into every project.
- To foster long-term partnerships with clients and stakeholders based on trust, integrity, and accountability.
- To contribute to capacity building by empowering local communities and creating employment opportunities through infrastructure development.
- To support the development of climate-resilient infrastructure that withstands natural disasters and environmental challenges.

Our values - As our business grows and evolves, it's our value that firmly fastens our culture and makes us unique.

- ✓ **Safety and health are of top priority** - Safety is our utmost priority. We energetically protect the safety and well-being of our human resources. We actively contribute to improving safety for all who operate in the industries we share.
- ✓ **Appreciation for environment and society** - We attempt to exceed expectations. We care for the environment, we are sensitive to the views of local communities, and we continue to maintain our status as an esteemed corporate citizen.
- ✓ **Robust business alliance** - We act with honesty and deliver on our commitment. With established track records of our professionals, we are trusted by our clients, associates, and partners.
- ✓ **Our achievement is our human wealth** - Our resources stand out. We value and attend to professionals' contributions and feelings; we achieve success through their motivation and experience.
- ✓ **Hard work is the key to success:** - We work collaboratively towards common goals to meet challenges and deliver standard and quality solutions. Our focus on teamwork has made us united in the alliance method of project delivery.

Communities

Nurturing strong and noteworthy relationships with the local community is the top priority at **United Engineers Alliance- UEA**.

Working in conglomerate with community organizations, we attempt to achieve long-lasting benefits to communities where we work.

Indigenous

We have meaningful opportunities to facilitate a link between Indigenous and non-Indigenous people and endeavor to achieve this by providing safe, ethnically inclusive workplaces, meaningful employment, and commercial partnerships, and by respectfully supporting local communities.

Our clients & partners:

Using our integrated knowledge, technological support, and local associates, we are skilled in delivering projects and services that contribute to the community, our local economy, and future generations, and our effort to provide support & solutions to its clients and partners. Our clients and partners symbolize some of the largest and most established companies and government agencies in India (such as PWDs-Assam, Meghalaya, Mizoram, Manipur; NHAI, APGCL, HFWD, Assam).
